Kurze Zusammenfassung

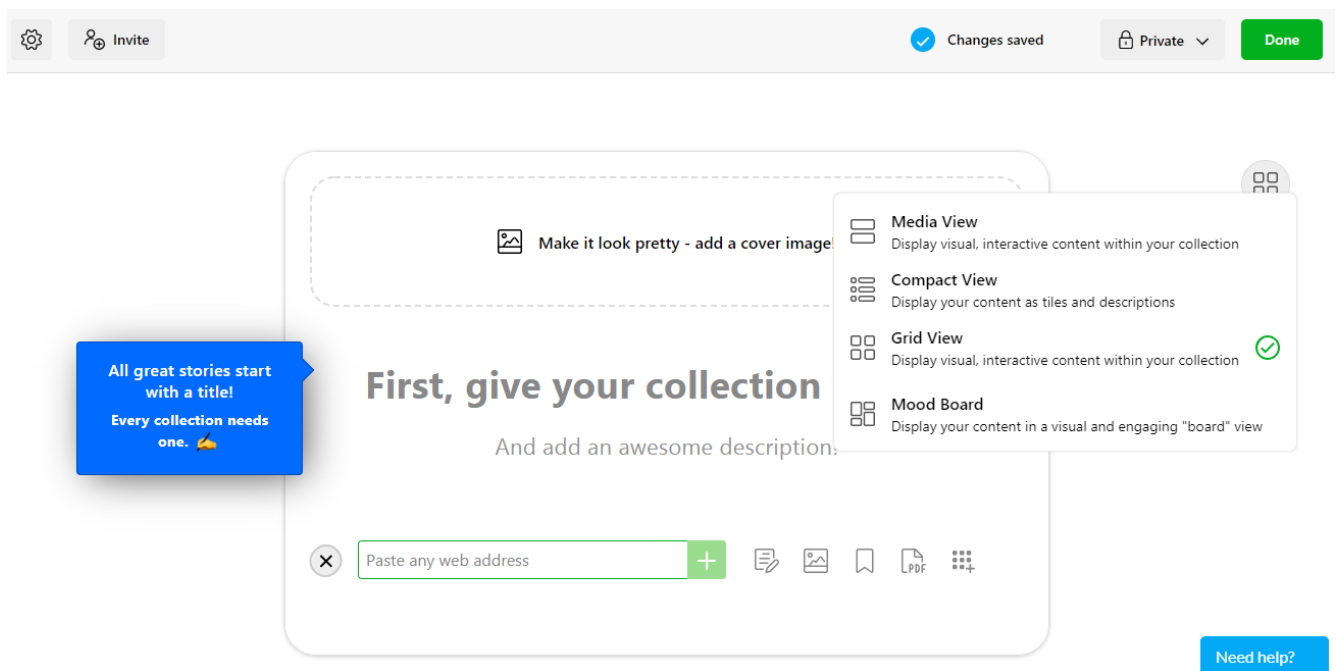

Digital portfolio creator

Link

<https://wakelet.com/>

Beschreibung

Wakelet is a digital collector site where you can store your information, websites, documents, photos or media collection related to a topic all in one place. The website is free to use, has a simple interface, and the collection it creates can be edited collaboratively.

Once we have set the framework and given the topic, we can share it with students for editing.

Vorteile

- The number of collections that can be created for free is unlimited
- Simple interface

- Collaboratively editable

Verwendung beim Lehren/ Lernen

This kind of digital collection can be useful for project work. As teachers we can also use it to organise our own collections. The interface can be connected to our virtual classrooms created in Google Classroom or Microsoft Teams, and we can import our learning groups.

If we offer our students the opportunity to create a student portfolio, we should be aware of the fact that the site offers the possibility to upload pictures, own work, and to view the linked websites in a compressed format. It provides an aesthetic and organised way for students to create their portfolio collection.

Art des Tools

Digital bookmark

Digital bookmark

An excellent tool for organising websites related to a subject or topic.

The collection can be shared with students, or you can give them a similar task: they can collect in one place materials related to the topic: articles, YouTube videos, blogs and other relevant content.

Digital workspace

Digital workspace

Online 'boards' provide collaboration opportunities for multiple users at the same time. They can be used to share a variety of content in one place: text, image, link, file, document, audio, video, etc.

Preisgestaltung

Free version available
