Vorteile

- free
- suitable for group work/teamwork
- easy-to-use
- several applications can be added (e.g.: questionnaires/polls/votes; Forms or Insights statistics: student activity, assignments, grades)

Nachteile

- stores saved meetings only for maximum 20 days
- in the free version, maximum 300 people can join a meeting
- the desktop application has more options/functions than the web browser version

Verwendung beim Lehren/ Lernen

- scheduled meetings
- screen sharing option
- creating collaborative class notes
- file upload & storage options
- many app options

Art des Tools

Digital workspace

Digital workspace

Online 'boards' provide collaboration opportunities for multiple users at the same time. They can be used to share a variety of content in one place: text, image, link, file, document, audio, video, etc.

Online communication

Online communication

The tools listed below facilitate communication during online teaching. Their main features include voice and video calling, messaging, screen sharing and file sharing.

Learning environment

Learning environment

An effective virtual learning environment has both learning management and content management functions. It supports communication, file sharing and can handle student assignments.

Although there are many such platforms, most schools opt for one specific application.
