Beschreibung

The Hungarian National Digital Archive (from 1 January 2017) is an online public collection of digitised cultural assets of Hungarian museums, libraries, archives, private collections, civil society organisations, cultural and educational institutions.

The aim of the database is to collect and organise digitised assets and to make them available to the public respecting copyright. It provides insight, revealing cultural content whose location would be more difficult to identify without a single database.

The screenshot displays the MaNDA website interface. At the top, there is a teal header with the MaNDA logo (a stylized eye) and the text "MaNDA HUNGARIAN NATIONAL DIGITAL ARCHIVE". Below the header is a search bar with a dropdown menu set to "all fields" and a search button. A notification below the search bar states: "There are 713 716 records and 12 581 164 metadata in our database". The main content area features a large image of the Empress Elisabeth Monument in Budapest, with a text box to its right titled "The Cult of Empress Elisabeth". The text in the box discusses the monument's role in the 19th-century city and its location in the Buda side park.
