[Sutori](#)

Kurze Zusammenfassung

Presentation tool for creating online lessons (stories).

Link

https://www.sutori.com

Beschreibung

You can include text, images, audio, video, links in the lesson or story. This can be shared with or presented to students.

Vorteile

- Suitable for all age groups.
- Students can give feedback.
- Runs on various devices.
- Can be embedded.

Verwendung beim Lehren/ Lernen

- By creating a story (or lesson), we also determine the order in which the learning content is to be processed.
- Students can also create stories and share them with each other for editing.

Art des Tools

Timeline

A timeline can be used for any topic where the order of events, the chronological order matters. We can use it when teaching history, but also when presenting a process or a succession of events.

For example, you can display historical events of a particular period with dates and inert notes to them with the most important facts.

It is not only for teachers - students can also create a timeline collaboratively when they recap on a topic.

In timeline creator apps you can use a variety of templates to make your own stunning and meaningful infographics in no time.

Presentation

Presentation

Using one of the tools below instead of the usual - and let's face it, often boring - PowerPoint presentation will surely result in success.

Being short of time, you can turn a previously prepared ppt into a video in just a few steps. Choose *Save As*, then save the presentation as *.mp4* and you're done.

Learning paths creation

Learning paths

By creating learning paths, you can determine the order in which you want the students to work through the learning material. For each "station", you can insert videos, exercises, text, links, etc., to enrich the learning process.
It also helps in differentiation, as we can create different learning paths according to the needs and abilities of the students.

Story telling

Storytelling

Personal stories are a very effective way of introducing a topic as they engage students.

The following apps can be used to add various media elements to stories and then share them with students, or even ask them individually or in groups to tell stories, either related to a personal experience or a subject.

Preisgestaltung

Free version available

Interface-Sprache

English

Enthält es ein eingebautes Repositorium, in dem wir Inhalte durchsuchen können, die von anderen Lehrern erstellt wurden?

Nein

Unterstützt die kostenlose Version Online-Kooperationen?

Ja

Level

For advanced users
