Mindomo

PDF

Short summary

Application for creating mindmaps, timelines.

Link

https://www.mindomo.com/

Description

After registering/logging in, we can start editing our mind map using ready-made, editable templates.

Advantages

- there many various quality templates available
- easy to use
- editable in many ways

Disadvantages

- in the free version we cannot share it for editing

Usage in teaching/learning

We can use it not only to create a mind map, but also for organisational charts, timelines, family trees, etc..
Tutorial video(s)

- Log in or register to post comments

Type of tool

Mind map

What is a mind map?

A mind map is a visual tool for structuring thoughts. It is a hierarchical diagram of everything that has been discussed. Key ideas/text/symbols/colours helps trigger mind flow and more detailed explanation to the presenter.

What is it good for?

As a study aid — the visual element is great at triggering memories. Researching new products and developing new ideas — as you discuss topics, they are recorded, allowing you to track idea development more easily, and for visualization for multiple people.
As a problem-solving tool — helpful in brainstorming problems and building on ideas to determine solutions.
As a presentation method — one is able to show how a process was developed, visualizing alternatives and topics discussed.

1. Start with a focus - This idea or thought needs to be the center of your mind map.
2. Plot sub-groups - From your main idea, you will determine key areas, which are sub-groups of your focus.
3. Develop further - Each of your sub-groups will likely to have their own set of sub-groups (use of a single keyword).
4. Expand – Add additional facts, pictures, symbols etc.
5. Add connections between (sub)groups to present interrelations.

An example

Did you know?

1970 - British psychologist Tony Buzan popularized the term mind map.

Timeline

Timeline

A timeline can be used for any topic where the order of events, the chronological order matters. We can use it when teaching history, but also when presenting a process or a succession of events.

For example, you can display historical events of a particular period with dates and inert notes to them with the most important facts.

It is not only for teachers - students can also create a timeline collaboratively when they recap on a topic.

In timeline creator apps you can use a variety of templates to make your own stunning and meaningful infographics in no time.
