Advantages

- free
- suitable for group work/teamwork
- easy-to-use
- several applications can be added (e.g.: questionnaires/polls/votes; Forms or Insights statistics: student activity, assignments, grades)

Disadvantages

- stores saved meetings only for maximum 20 days
- in the free version, maximum 300 people can join a meeting
- the desktop application has more options/functions than the web browser version

Usage in teaching/learning

- scheduled meetings
- screen sharing option
- creating collaborative class notes
- file upload & storage options
- many app options

Type of tool

Digital workspace

Digital workspace

Online 'boards' provide collaboration opportunities for multiple users at the same time. They can be used to share a variety of content in one place: text, image, link, file, document, audio, video, etc.

Online communication

Online communication

The tools listed below facilitate communication during online teaching. Their main features include voice and video calling, messaging, screen sharing and file sharing.

Learning environment

Learning environment

An effective virtual learning environment has both learning management and content management functions. It supports communication, file sharing and can handle student assignments.

Although there are many such platforms, most schools opt for one specific application.

Pricing

Free version available

Interface language

English

Hungarian

Slovenian

Does it have a built-in repository where we can browse content created by other teachers?

no

Does the free version support online cooperation?

yes

Difficulty

For beginners
