The images above are from publicly shared learning pathways. From the landing page, anyone can access the public marketplace without registration.

I'm a teacher

# Start your own Learning Path today

Be creative, create fun and interactive Learning Paths!

Start a Learning Path

Find Learning Paths

The "Find Learning Paths" button leads to the marketplace.

It is not compulsory to publicly share the completed learning path. Symbaloo assigns a code to each learning path, which allows learners to follow the path without registering.

## Vantaggi

- Compiling a route is very easy, especially if you have your own webmix on Symbaloo.
- Symbaloo provides statistics on the students' work, the teacher gets a picture the students' level of knowledge.
- Simple, visual, playful.

## Svantaggi

- The interface is marked "BETA", which means that the application is still under development, and you may get an error message for some operations.
- Unfortunately, the interface language is English (although it speaks for itself most of the time, with some practice this should not be a problem).

## Utilizzo per l'insegnamento/apprendimento

The digital learning path

- supports learning at home,
- supports differentiation,
- is visual, playful, reusable, easy to modify.

## Tipologia di strumento

# Learning paths creation

## Learning paths

By creating learning paths, you can determine the order in which you want the students to work through the learning material. For each "station", you can insert videos, exercises, text, links, etc., to enrich the learning process.

It also helps in differentiation, as we can create different learning paths according to the needs and abilities of the students.
