

Irrigation Systems

Submitted by Lajtos Gábor on Wed, 06/15/2022 - 10:59

Tipologia di piano

Piano di lezione

Settore

Agriculture, forestry, fisheries and veterinary

Argomento / Materia

Irrigation systems for plant walls

Materie tecniche/professionali

Garden technology

Voto

14th grade

Obiettivi di apprendimento

Irrigation system for plastic and metal-structured plant walls design

Concetti

plastic and metal framed plant walls

Strumenti necessari

Smartphone, tablet, internet access

Materials to be shared before the lesson/project task

<https://www.youtube.com/watch?v=CId3DOjJNTQ>

Introduzione e preparazione della lezione / project task

Searching for a video in social media (Youtube) that introduces the topic. Setting the aspects and questions to the students based on which they can drive their own new knowledge acquiring process.

Students watch the video pre-class.

The teacher prepares the teaching material (ppt) pre-class.

Realizzazione della lezione / project task

The lesson takes place with the active participation of the students, the teacher helps the understanding, directs the conversation, explanations if necessary.

Didactic activities:

- Organization - 2 min. - listening to presence reports, instructions by the teacher
- Motivation 3 min. - dialogue

Have you all watched the video?

Would you like to discuss on it?

- Preparation - 4 min. - introduction to the topic by the teacher

Structure of plastic and metal green walls, its elements

Types of irrigation systems

Assembling of different irrigation systems

Elements and parts of irrigation systems

- Processing new knowledge - 30 min. - discussion, questions and answers

Getting to know the irrigation system of plant walls outdoors and indoors

Steps for designing an irrigation system for plant walls

How can you design an irrigation system in the plant walls?

What are the parts of the irrigation system?

What operates the irrigation system?

How can we choose the proper irrigation system?

Where can you get its parts from?

What can you implement yourself, as diy?

- Consolidation of the knowledge - 5 min. - instructions, dialogue

Discussion of emerging questions

If necessary, reviewing the video

- Assessment - 1 min. - verbal

Evaluation of classwork and the video

Applicazioni utilizzate

Genially

Biteable

Programma di valutazione

Peer evaluation by the students.

Differenziazione

Those who have watched the video at home will help those, who have watched it only at the beginning of the lesson as they will have studied the video at least 2 times until the lesson starts.

Compiti a casa, project task

Search for similar videos on the Internet that can deepen their knowledge on the topic, or try to create their own.
