Introduzione e preparazione della lezione / project task

At the end of the previous lesson the teacher speaks about the upcoming topic: how we celebrate Christmas in Hungary, and asks the students to collect information in their families and surroundings.

Before the class the teacher searches for suitable videos that contain the required vocabulary and present simple tense.

The teacher shares the video links with the students and asks them to watch the videos before the class. She asks them to identify the English words and expressions still unknown and look for their translations in an online English dictionary.

Realizzazione della lezione / project task

- **Organization** – 2 min. – checking the presence list

- **Motivation** – 3 min. – talking

Have they all watched the videos?

Christmas events in the school

- **Consolidation of the new knowledge** – 5 min. – instructions, dialogue

Group of students summarize their topics (e.g. Christmas meals, school events)

What habits have they found that are not in the videos?

- **Assessment** – 1 min. – announcement, dialogue

Assessment of class work and group work

Evaluation of the videos

Programma di valutazione

One representative of each group summarizes the group's opinion and comments on the jobs done by the other groups. Each group will be evaluated by the other groups regarding the aspects that have been set before the evaluation phase (What was good; what went wrong).

Differenziazione

The groups are formed in accordance with the level of the knowledge of students: they will be mixed. Each group has one "speaker", who is a bit better in English than the majority of the group.

Compiti a casa, project task

Think about what traditions they want to keep, when they grow up.
