Description

"EU Code Week was launched in 2013 by the Young Advisors for the Digital Agenda Europe. The European Commission supports EU Code Week as part of its strategy for a [Digital Single Market](#). In the [Digital Education Action Plan](#) the Commission especially encourages schools to join the initiative.

The goal is to help more young people to master the basics of coding and computational thinking.

EU Code Week is a grass-roots movement that celebrates creativity, problem solving and collaboration through programming and other tech activities. The idea is to make programming more visible, to show young, adults and elderly how you bring ideas to life with code, to demystify these skills and bring motivated people together to learn."

The screenshot shows the CodeWeek.eu website homepage. The browser address bar displays "codeweek.eu". The website header includes the CodeWeek logo, navigation links for "Activities", "Resources", "Community", "Schools", "About", and "Blog", and social media icons for GitHub, English (EN), Facebook, and Twitter. The main content area has an orange background with a white text box containing the text: "EU Code Week is a grassroots initiative which aims to bring coding and digital literacy to everybody in a fun and engaging way...". Below this is the hashtag "#CodeWeek" and the dates "9-24 October 2021". A paragraph of text reads: "Learning to code helps us make sense of the rapidly changing world around us. Join millions of fellow organisers and participants to inspire the development of coding and computational thinking skills in order to explore new ideas and innovate for the future." To the right of the text is an illustration of five diverse people (three women and two men) sitting around a table, working on laptops and a small robot. A world map is visible in the background of the illustration. At the bottom, a call to action says "Get involved! Are you a teacher? Find out how to get involved!".
